

SANKALP SRINIKETHAN GALLA

Summary

Computer Science Student with full-stack development experience and hands-on knowledge of cloud computing, data analytics, and machine learning using IBM Cloud tools. Known for attention to detail and collaboration, I thrive in team settings and enjoy tackling challenges. Eager to grow my skills and contribute to scalable solutions.

Work Experience

IT INTERN

Jul 2023 - Nov 2023

I & T LABS

- Applied Python and Full-Stack Development in various projects, including creating a to-do list and a simple portfolio website.
- Led a team to successfully manage the development and launch of a college website project.

Software Intern

Jun 2024 - Jul 2024

STIGMATA TECHNO SOLUTIONS

- Gained practical industry experience in JavaScript.
- Worked on a cloud security software project, including reviewing and documenting webpages and providing design feedback.

IT INTERN

Jul 2024 - Aug 2024

EDUNET

- Learned data analytics and machine learning using IBM Cloud tools like Watson Studio and Watson Machine Learning.
- Acquired basics of large language models (LLMs) and natural language processing (NLP).

Chatbot Developer

Jan 2025 - Apr 2025

Academic Project

- Built a legal-assistance chatbot using OpenAI's API, capable of scanning legal documents and providing relevant responses.
- Developed a simple web interface and integrated MongoDB for data storage, contributing to both front-end and back-end development.

Education
